

Maximum Sales Power Audio Visual Equipment Requirements

The audio visual equipment requirements for Maximum Sales Power Faculty Guest Speakers are based on the group size and presentation facility layout.

At Maximum Sales Power we request the following AV equipment set up:

Audio Equipment

- Minimum 2 Speaker Audio System with Amplifier and Microphone
 - Handheld wireless microphone or wireless headset microphone (preferred)
 - Audio system with multiple inputs, so that in addition to the microphone, a computer input / output ability is available (computer audio in addition to microphone)

Visual Equipment

- Video Image Capabilities
 - Presentation screen or television
- HDMI Projector - HD or Equivalent Resolution
 - Projector brightness (preferably over 2000 lumens)
 - Mac compatibility (or HDMI capacity)
- Proper Lighting, Stage and Backdrop
 - Determined by group size and facility layout

Final audio visual equipment capabilities for the requested speaking engagement must be documented and sent to MSP for approval 2 weeks prior to the event.
